

**DIBLANC Sweetheart Tintstick**  
**3-in-1 Tintstick for Anti-Aging Lip Treatment**  
**3g**

**ABOUT THIS PRODUCT**

DIBLANC Sweetheart Tintstick is a 3-in-1 tintstick with the moisture sensation of lip balm, colouration of tint and vivid colouring of lipstick. The colour-adapting formula reacts to your lips' pH level and adjusts the shade accordingly which enables you to create your own colour code. Enriched with the blend of Coconut Oil, Macadamia Nut Oil, Sunflower-Seed Oil and Shea Butter, leaving lips looking plumper, smoother and more luscious with a single swipe.

**BENEFITS:**

- Rich and vivid colouration on bare skin.
- Long-lasting colour that stays on all day, even after eating and drinking.
- Lips feel and look softer, smoother and moisturized.
- Smooths the look of wrinkles around the delicate lip area.
- Various colours can be created depending on the frequency of re-application.

Apply 1 time

Apply 2 times

**DIRECTION FOR USE:**

Apply liberally to lips. May re-apply tintstick for various colour.

**KEY INGREDIENTS**

**ACTION**

GLUTEN FREE, NO PARABENS, NO POISON, NO GREASY MESS

## FREQUENTLY ASKED QUESTIONS

### 1. How colour-changing actually works?

The ingredient RED 27 (a colour additive in FDA list as safe and permitted for use in drugs and cosmetics) in DIBLANC Sweetheart Tintstick is a 'reversible thermochromic colouring material' which changes its colour according to lip's temperature, moisture and pH. When it comes in contact with moisture, the change in solubility and pH causes the dye to turn bright pink. Thus, DIBLANC Sweetheart Tintstick can turn based on your lip's pH.

### 2. I have sensitive skin. Can I use this product?

Yes. Coconut Oil, Macadamia Nut Oil and Shea Butter in DIBLANC Sweetheart Tintstick keep lips protected and nourished. Sunflower-Seed oil helps hold moisture and soothe sore lips.

### 3. Is this product suitable for people with eczema?

Yes. The ingredient Coconut Oil is an excellent skin moisturizer. Besides removing the dryness and roughness of skin, Coconut Oil provide soothing benefits and help prevent any dryness or irritation from occurring. Anyway, we suggest you consult with your physician or health care provider for any specific medical conditions or concerns that you have.
